

## Institutionalised Children Explorations and Beyond

Published in Association with [Udayan Care](#)

eISSN: 23493011 | ISSN: 23493003 Frequency: Bi-annually

### [CALL FOR PAPERS](#)

*Institutionalised Children Explorations and Beyond* (ICB) is a bi-annual international academic journal, launched on 14 March 2014, to discuss the state of care of children in alternative forms of care. The journal's regional focus is on the eight South Asian countries: Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan and Sri Lanka. So far, 13 issues of the journal have been released.

The mission of the journal is to create a rich platform for sharing discourse related to law, practice and evidence-based research, regarding alternative care for Out-of-Home-Care (OHC) and at-risk children and young persons in South Asia, and serve the purpose of developing dialogues and debates amongst practitioners, academics, researchers, policy makers, advocates, activists and volunteers working for child and youth care. The journal aims to improve standards of care and mental health practices that enhance the delivery of services in alternative care settings in the South Asian region.

The vision of the journal is to evolve as the most comprehensive and sought after journal for South Asian countries that examines and addresses all issues related to alternative care for children and young persons in the region, as well as from an international perspective, from the lens of policy, legislation, jurisprudence, case law reviews, good practices, expert interviews, research and future directions to improve the lives of OHC children and youth.
